the Weather Cotton Hurt by Drought in Some States and by Bain in Others. WASHINGTON, July 21,-The crop bulletin lesued by the Weather Bureau for the week ended yesterday says that the week has been generally favorable for growing crops in the principal agricultural States. Too much rain, however, has caused damage to grain inschools in the Ohlo Valley and in Tennessee.

Corn has made excellent progress during the week, and the outlook for this crop in the great corn States continues most promising. The crop is decidedly in nowance of the season and the early planted in Kansas and Missouri is nearing maturity. In South Dakota and extrome western Nebraskaworn is in need of rain. Spring wheat has experienced favorable weather conditions in Mamesota and is reported as somewhat improved in North Dakota, but has been injured to some extent in South Dakota by rust and dry and last weather. There has been too much rain for cotton in

Georgia, Florida, and South Carolina, while the crop is suffering from decoght in Arkansas, Louisiana, and Mississippi. A Texas the week has been very favorable for cotton, and the plant has, as a result of recentarains, taken new growth and is fruiting well.

The general outlook for tobacco continues promising. In Ohio, however, the crop is reported grassy, and in central Tennessee too much rain has caused spindling growth and Frenching. In the Carolinas the weather conditions have not been favorable for curing to acco. Light frosts in Wisconsin on the 15th id 16th caused but slight damage. Some oughing for fall seeding has been done in Among the special telegraphic reports are

Among the special telegraphic reports are these:

Illinois—Oats much damaged by rust and bugs, only fair yield and light graint shocked grain damaged by heavy rains and some low-lands flooded; corn doing well, tasselling and silking to north line of State, and early crop pray fally assured.

In sana—Corn of fine color; excellent potatoes, promise of large yield; oats nearly at harvested; tobacco excellent, much topped; large tomato crop, in fine condition.

Ohlo—Oats half cut, good yield; corn earing and looks well; wheat yielding poorly; some reports of army worm on oats, millet, corn, and pastures.

tion: pastures somewhat improved out generally poor.
Wisconsin—Wheat and ryo nearly all in the shock; oats and barley heavy crops, and being harvested in southern and middle section; corn doing well; army worm appeared in various parts of State, and is doing much damage.
Minnesota—Cooler weather favored filling of wheat; corn continues making rapid growth; barley harvest begon, with yields below and quality above average; haying continues, with heavy yields.

heavy yields.

Iowa Copious rains fairly well distributed over contral and southern districts greatly helped corn, potatoes, grass, and garden truck; early thrashing reports indicate very light yield and weight of oats, with wheat and barley concerns below.

yield and weight of oats, with wheat and barley somewhat below average.

North Dakota-Rain in most sections improved wheat somewhat, especially early sown; cool-weather following was of great benefit to all crops; harvesting barley, rye, and flax commenced; haying progressing in all sections.

South Dakoth-Many localities wheat, oats, and potatoes more or less injured by high temperature, dry weather, and rust; corn did well generally and is tasselling and earing, but needs rain.

generally and is tossening and caring.

Nebraska—Winter wheat yielding well, but cats light in quantity and poor in quality; corn has grown well and continues in excellent condition, except in extreme western counties, where some injury from drought.

I Kansas—Conditions unusually favorable to all growing crops and they are in prime condition; early corn in reasting car in north portions and more advanced in south, with late corn following rapidly.

ing rapidly.

Okinhoma-Excellent weather for all crops plenty of rain; cotton, corn, and grass fine; peaches, grapes, and other fruits and vegetables

abundant.

Môntana.-Crops in unirrigated districts showing need of moisture, in others very promising:
first shipment of cattle now under way.

Wyoning Heavy rains caused some damage,
but will prove very beneficial to all growing erops.
Idaho—Irrigated crops continue to thrive and

Idaho-Irrigated crops continue to the late of 12th mirrigated much improved; rains of 12th anised much damage to freshly cut hay. Haying somewhat retarded, but well advanced; mail fruits ripening.

Colorado-Crop conditions materially importance of the late o proved in most sections by generally copious rains, but some damage to hay and barley in shock; outlook favorable for two or more crops of alfalfa in southern portion. shock; outlook layorance for two or more crops of alfalfa in southern portion. New Mexico-Partly cloudy, moderately cool weather, with frequent showers and steady, soaking rains, have advanced growing crops and stock ranges wonderfully; outlook very

and stock ranges wonderfully; outlook very satisfactory.

Utah—Conditions have been favorable to unifrigated crops and the ranges; wheat harvest commenced and having about finished.

Washington — Potatoes being injured by drought and hot sun greatly injured wheat; harvest of fall wheat begun; dense smoke latter part of week afforded some shelter from sun.

Oregon—Grain crop injured by weather and prosuccitive yields reduced one-fourth; wheat harvest commenced; hay harvest over; excellent crop.

California Hot spell beneficial to all growing crops: harvesting continues, threshing begun, and grain yielding well; some districts report largest crop in years.

CARNEGIE ON PUBLIC EXPENSES. He Is for River and Harbor Improvements and Fine Post Offices.

LOUISVILLE, Ky., July 21 .- Some two months ago an interview with Mr. Carnegie appeared in the Iron Age, in which he took strong grounds against the free-silver craze, saying that he would rather have free trade and sound money than protection and free sliver. Capt. George C. Norton of this city wrote Mr. Carnegie a congratulatory letter in which, however, he sugcongratulatory letter in which, however, he suggested that Mr. Carnegle ought to suggest to
his party that they should disapprove the wanton extravagance of the River and Harbor bill.
Mr. Carnegle's reply, just received, has follows:
"I am gind you like my views published in
the Iron Aye. The expenditures of the United
States to vernment, as compared with other
governments, are really very small, taking into
secount its wealth and population. I do not
think there is much danger in the line of excessive expenditure.
"The pensions are the great charge and

ceasive expenditure.

"The pensions are the great charge, and these will now rapidly lessen. The amount we spend upon harbors and rivers, in my opinion, should be double, as no money expended yields such benefits to the country. Fine Government buildings for Powt Offices and courts scattered throughout the land are really symbols of the unit of the country, and I am always pleased to see a city get a Post Office or court building. There is an unwise economy and a wise extravagance. Our country is very rich, indeed, but has been sadly mispoverned financially. The Government should go out of the banking business and we should stand firmly upon gold."

TRIALS IN ENGLISH, NOT GERMAN The Recorder Puts a Stop to Jurors' Talks in Denisch with a Witness.

Bernardt Reitt, a recently arrived German immigrant, was on trial yesterday before Re-corder Goff in the General Sessions, charged with taking \$110 from Mrs. Augusta Germel. came with him from Germany. Nine of the 1 rymen were German-Americans.

The woman took the witness stand, and

The woman took the witness stand, and through the interpreter told an involved story of the rubber. The of the jurors interrupted the interpreter, and asked the witness several questions in German. The Recorder frowned. Another juror stood up and began speaking to the witness in the transparent particular and the witness in the first and particular and the witness in the fine of the carried on a sometrestation for several minutes.

"This must stoo," said the liccorder. The juror was in the inides of an animated sentence, and paid no attention.

"Hold on, Mr. Juror," almost shouted the Recorder. The juror paused.

"That may be interesting to you," continued the Recorder, "but trials are conducted here in English and not in German. Let this derman dislegue cease." The juror saidown. The Recorder ordered the jury to acquir the man, as there was no evidence of a crime.

Landlords Scottled by a Magistrate, Sixtoen owners and agents of real estate in the Eldridge street police station precinct were summoned to the Essex Market Court yesterday to answer for renting apartments to tenants who used them for immoral purposes. The perwho used them for immoral purposes. The persons summoned are: M. Elias of 140 East Houston street. Heyman Kotzer of 38 Chrystie atreet.
J. Slamoff of 195 Orchard street. Henry Heller of 7 Stanton street Mr. Wester of 206 Forsyth atreet, George G. Hallock of 18 Stanton street, John Ulrich of 217 and 219 Chrystie street, Mrs. Clinger of 230 Chrystie street, in Lurenz of 17819 Chrystiestreet, Lena Jacobs of 182 Chrystiestreet, Lena Jacobs of 182 Chrystiestreet, Lena Jacobs of 182 Chrystiestreet, Charies Dress of 79 Delancey street. H. M. Levine of 198 Forsyth street, and Henry Sohumacher of 183 Allen street. They were all lectured by Magistrate Kudlich, who warned them that unless they elected the objections ble tenants at once he would Issue warrants for their ALL ABOUT IS TO 1.

Mint Director Preston's Explanation to Auxious Inquirers. WASHINGTON, July 21 .- The demand for in-

formation on the various phases of the financial mestion has become so universal that Director of the Mint Preston has been compelled to convert his office into a bureau of information. Everybody, he says, apparently wants to know all about free coinage and what 16 to 1 means and what the difference is between the silver standard and the gold standard, &c. The questions that come to the bureau in each mail cover every possible phase of the currency question, and come from members of all political parties as well as from those who belong to no political party. Much of the time of the mint bureau clerical force is employed in replying to these numerous searchers for the truth, and Director Preston says that he could easily dispose of 25,000 copies of his last annual report if they were at his disposal, which, unfortunately, they are not. To supply the deficiency, therefore, and meet the fast growing demand for inforing statement of the coinage ratio between gold

"All standard silver dollars coined by the mints of the United States since the passage of the act of Jan. 18, 1837, have been coined in the ratio of 1 to 15.9884-generally called the ratio of 1 to 16, 15,0884 being very nearly 16,

the ratio of 1 to 10.0884—generally called the ratio of 1 to 16, 15.0854 being very nearly 10. Still, to reach accurate results, the former and not the latter figure must be used in calculation. The ratio is obtained in this way: The silver dollar contains 371.25 prains of pure silver and the gold dollar 23.22 grains of pure gold. If you divide 371.25 pr 32.22 you will get the ratio of weight between a gold dollar and a silver dollar, that 31.25 by 23.22 you will get the ratio of weight between a gold dollar and a silver dollar, that 31.59884.

"It is true that to be on a par with gold, silver would (at our ratio) be worth \$1.2929. The reason is this: A gold dollar contains 23.22 grains of pure gold. In an ounce, or 480 grains, of gold, there are as many dollars as 23.22 is contained times in 480 grains. If you divide 480 by 23.22 you get \$20.67, the number of dollars that can be coined out of an ounce of pure gold: in other words, the money equivalent of one ounce of gold or of 15.9884 ounces of silver at the ratio of 1 to 15.9884, ounces of silver the worth \$20.67, one ounce will be worth \$1.2929, as you can prove by simple division. The same result is obtained by dividing 486 grains, or one ounce, of silver by 37.1.25, the number of grains of pure silver in a standard silver dollar, at the ratio of 1 to 15.9884, which gives \$1.2929.

"Sixteen ounces of pure silver will coin a little more than one ounce of gold, that is, \$20.67, You can prove this by dividing 15.0884 ounces of silver will coin exactly the same amount of money as one ounce of gold, that is, \$20.67, You can prove this by dividing 15.0884 ounces of silver will coin exactly the same amount of money as one ounce of gold, that is, \$20.67, You can prove this by dividing 15.0884 ounces of silver will coin exactly the same amount of money as one ounce of gold, that is, \$20.67, You can prove this by dividing 15.0884 ounces of silver will coin only \$16.80 at the ratio of 1 to 16.

ounces of silver will coin only \$16.80 at the ratio of 1 to 16.

"As will be seen above, one ounce of silver will coin \$1.2929. Multiplying \$1.2929 by 16 gives \$20.68. You can make the same result in another way: Sixteen ounces troy, or 7.680 grains, divided by 371.25 gives the number of silver dollars that can be coined out of sixteen ounces of silver; 7.680 divided by 371.25 equals \$20.68."

MORE WAR IN THE POLICE BOARD. The Rival Ractions Preparing Themselves for a Senewal of Rostilities.

The tour of Police Commissioners Roosevelt and Andrews through the down-town precinct on Monday night seems to have some significance. Heretofore when the two Commissioners have made similar tours they have been willing to tell all about it next day, but it was not so this time. And it is now said that there is a little fight for supremacy going on among the members of the Board, with Commissioners Parker and Grant on one side and Commis sioners Roosevelt and Andrews on the other, This seems probable, insomuch as Monday night's trip was made shortly after Commisnight's trip was made shortly after Commissioners Parker and Grant had summoned all the roundsmen in the department before them. Chief Coullin intends to reduce a number of roundsmen, and Mr. Parker looked the men over to see which of them should be remanded. Commissioner Rocevelt, it is said, knew nothing of this until the matter was made public, and it is believed that he and Mr. Andrews went around on Monday night with the idea of inspecting the roundsmen so that they can be in an intelligent position regarding these efficers when the proper times comes. The Chief is preparing to detail detectives to all the precincts, and also to increase the force of the Detective Bureau. He has made up a list of the men he has selected for the places and sent it to Commissioner Parker, who will look the men over.

Mr. Parker had some of the men before him.

Commissioner Parker, who will look the men over.

Mr. Parker had some of the men before him on Monday. Commissioner Roosevelt heard what Mr. Parker was doing, and he ordered the Chief to furnish him with a list, too. Yesterday some of the men who were sent for by Commissioner Parker on Monday were summoned to Headquarters by Mr. Roosevelt.

It seems certain that Commissioner Roosevelt is preparing to meet Mr. Parker and the Chief when any steps are taken toward making changes in the force. Commissioner Grant is evidently taking sides with Mr. Parker, while Commissioner Andrews is behind Mr. Roosevelt.

WILL OF EMILY C. WATSON.

Estate Goes to Fourteen Charities if Rhine-

By the will of Emily C. Watson, filed in the office of the Eurrogate vesterday, an estate which is supposed to be large is left, in the event of certain contingencies, to charitable institutions An annuity of \$1,000 is left to the daughter of the decedent's sister, Laura V. Rhinelander and one of \$1,500 to the testatrix's mother. Nancy M. Rhinelander. The house at 17 East Seventy-second street is left in trust to the sister, at her death to pass to the nephew of the testatrix, Rhinelander Waldo. Should the latter die without issue, then the property is to be sold and its value divided equally between the following institutions:

Home for incurables, House of Rest for Consumptives, New York Eye and Ear Infirmary, Bables' Hospital, St. Luke's Home, Home for Old Men, Sheltering Arms, Society for the Prevention of Crueity to Children, the S.P.C. A., Children's Aid Society, St. Barnabas House, Church Mission for Deaf Mutes, American Seaman's Friend Society, Society of St. Johnsand. The residue of the estate is left in trust to the decedent's brother, Charles E. Rhinelander, until Rhinelander Waldo reaches the age of 30 years, when the principal is to be paid to him. If he dies before reaching 30 years, leaving is any, then one-half of the morne goes to such issue until the death of Charles, when it all passes to Waldo's issue. In the event of Waldo dying without issue, then the residue is to be divided share and share alike among the above institutions. The will is dated Nov. 14, 1891, and the executors are Charles Rhinelander and John M. Bowers. Seventy-second street is left in trust to the sis-

MABEL BHANNON MISSING. Has She Gone Off with Motorman Anthony

Heyfortht Fifteen-year-old Mabel Shannon is missing rom her home at 1,369 Third avenue, Brooklyn, and it is suspected that she has eloped with An thony Seyforth, a motorman on the Fulton avenue line. Seyforth boarded with the girl's mother, but he left a week ago, owing her come money. Mass Shannon went to see Seyforth on Monday to collect the money, but she did not return. Yesterday Mrs. Shannon received a postal card from Seyforth saying that he had gone to Buffalo, and that Mabel was with him.

A New President for the Sechive Bank of

Jerney City. The Board of Managers of the Provident Institution for Savings of Jersey City, generally known as the Beehive Bank, has selected Edmund W. Kingsland as President to succeed the late Freeman A. Smith. Mr. Kingsland was Secretary and Treasurer of the bank and has been connected with the institution for thirty-James S. Newkirk, Assistant Socretary, was promoted to Mr. Kingsland's place. Mr. Newkirk has been with the bank twenty-siz years. The bank has more individual accounts than any similar institution in the State. On July 1 the assets were \$8,877,014.39 and the liabilities \$8,159,059.80, with a surplus of \$729,054.59.

Local Business Troubles, Thomas J. Brennan, dealer in out stone at the foot of West Fifty-seventh street, made an assignment resterday to Thomas J. Cosgrove assignment resterday to Thomas J. Cosgrove without preference. He has been in this business since 1850, and has also been interested in several building operations.

James W. Taylor has been appointed receiver of a row of seven apartment houses W. W. Taylor is putting up on the south side of 116th street, east of Seventh avenue. The plaintiffs are James W. Taylor and the executors of the estate of Michael Giblin, who size to foreclose a second mortrage made by W. W. Taylor for Str,000, on which \$51,905 has been advanced to erect the buildings.

Twenty-three Firemen Overcome by Smoke, CHICAGO, July 21.-Twenty-three men were overcome by smoke while fighting fire in the basement of Gustav Pretzel's commission house at 10 West Kandolph street last night. Five of the men were carried out in an unconscious condition, while the remainder managed to stagger to the street and were then conveyed to their various angine houses. None will die. TUESDAY, July 21. The definite announcement this morning that number of the larger banks had, at the suggestion of a prominent member of the Clearing

House Committee, agreed to turn into the Treasury a part of their holdings of gold in exchange for legal tenders, had a decidedly en-couraging effect, both here and abroad. The London market for American railway securities showed a decided improvement when business was resumed here, and, in consequence, foreign arbitrage houses bought a few stocks, and would have taken more but for the sharp advance in prices at the opening, caused by the covering of shorts. Operators for a decline appeared to be thoroughly slarmed by the proposed action of the banks. The opening of the market was so buoyant and the advances overnight so sharp that they invited a resumption of the selling movement. In consequence, a decided setback took place throughout the list, and the early improvement was in many cases entirely wiped

again on reports of weakness in the sterling ex-change market and rumors that the banks had agreed to contribute fully \$20,000,000 to the Treasury. As a matter of fact, the decline in exchange was infinitesimal and, as set forth in detail in the news columns of THE SUN, the amount of gold that twenty-five of the banks have agreed to turn in to the Treasury is a little under \$12,000,000. In the last hour one of the more aggressive professional traders made a vigorous and effective raid upon values, which was accompanied by reports that the programme of the banks had met with some serious obstacle and might be abandoned. No basis for these reports ex-That the determination of the banking community to stand by the Treasury, not be-cause the Government needs assistance, but because capital had become irrationally timid, has already accomplished something toward restoring confidence, as is shown by the higher prices for a majority of securities to-night than were recorded at the close of business yesterday. There was a slight falling off in the volume of

trading as compared with yesterday, and the transactions were not as well distributed. Sugar Refining, which fluctuated widely and sustained the only noteworthy net loss among the active stocks, supplied nearly one-quarter of the total dealings. St. Paul contributed more than a fifth. Other noteworthy dealings were in Chicago, Burlington and Quincy, Rock Island, Chicago Gas, and Louisville and Nashville. The inactive stocks that suffered severely yesterday recovered a part of their losses to-day. The only noteworthy net gains were recorded for those stocks. The closing was irregular.

Final sales compare with those of yesterday
